How to make a Christmas Hand Wreath

You will need:

- Several sheets of green paper
- A pencil
- Glue stick
- Scissors
- Ribbon or string
- Red paper

Instructions

1. First, draw round your hand several times. Make sure you draw round each finger.
2. Next, carefully cut out each hand.
3. Then arrange your hands in the shape of a wreath.
4. Once you are happy with the layout, glue each hand together.
5. Then draw some circles on the red paper and cut these out for the berries and glue them on to the wreath.
6. Finally, loop some ribbon or string round the top and tie in a bow.

Your wreath is ready to be displayed, hanging from a door, hook, or wall.
