How to make your own Christmas Wrapping Paper

You will need:

- A length of brown craft paper or similar paper
- A potato or two
- Shaped biscuit cutter (like a star)
- A knife (ask an adult to help)
- Some paint
- A plate

Instructions

1. First, cut a potato in half.
2. Then push the star cutter into the flat side of the potato.
3. Next, cut round the star, cutting out the pieces in-between the star points.
4. Pour a little paint on to the plate.
5. Once you have a star shape on your potato, dip it in the paint and press down on to your paper.
6. Keep doing this until your paper is decorated in stars.

Let the paint dry and your lovely wrapping paper is ready to use!
